THUMB SCREWS ARE SIMILAR TO WING SCREWS, EXCEPT THEY ARE COLD FORGED, NOT DIECAST, AND THEREFORE MUCH STRONGER. WE HAVE ¼-20 BY 2 ½" IN BAGS OF 100, OR CASES OF 500. OTHER SIZES, FROM 6-32 UP TO 3/8-16 ARE AVAILABLE IN MANY LENGTHS, IN CASE QUANTITIES, WHICH VARY.

## TORQUE WASHERS 1/4"

(FOR ¼" CARRIAGE BOLTS)

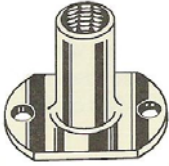

Torque washers are made to be used with ¼" carriage bolts. They serve two purposes, to increase the head diameter of the carriage bolt to 1", spreading the bolt head load over a much bigger area, and because the washers have a square center hole and prongs in the bottom side of the washer, they lock the carriage bolt in place, and prevent it from turning during tightening or loosening of the nut. An excellent companion piece for the carriage bolt and washer base wing nut.

PRICING:-----250 TO 1000 PIECES, PER 250 FOR \$58.70  
1250 PLUS PIECES, PER 250 \$52.50
